# THE SCIENCE

The SKINSTORM Facial is a world's first in treatment layering, in 6 unique element steps to deliver everything the skin needs to intensively rejuvenate, repair, super cleanse, resurface and smooth, renew and actively attack congestion while the patented dissolvable oxygen infusion containing drone technology is driven into the skin to offer a true inside out treatment, creating a mattress effect to plump and firm, while the dissolvable oxygenating infusion and active ingredients travel to where they are needed to help kill bacteria on an acne prone congested skin.

“**OXYGENATES THE SKIN WITH 185.5% OXYGEN SATURATION**”

## FACT

Fact. Think all the lifechanging results of super cleansing, oxygen infusion, skin resurfacing, cryo, oxy micro-needling to stimulate your own new collagen to firm and smooth, extraction, peeling, vitamin infusion, high pressure injection without the needle facials to plump, firm and create a natural lip filler all in just one session.

## HOW?

The beauty secret of the moment has to be treatment layering. Imagine achieving the dramatic results of multiple clinical skin treatments that are all tweaked to suit your skin type in one, now that's what we call skincare innovation.

**ALL SKIN TYPES. ALL SKIN COLOURS. ALL AGES**

## WHY?

Infusing pure dissolvable oxygen into our treatment formulations allows the oxygen content to be driven deeper into the skin. Think of it like a vitamin booster shot for your skin as skin cells are naturally powered by oxygen. It feeds skin cells starved of oxygen to restore radiance and fatigue and increase energy within the skin. To enable your skin to respond optimally to the treatment, cold temperatures destress the skin allowing for an intensive treatment without the downtime.

“**LIKE A SHOT IN THE ARM FOR THE SKIN**”

## THE RESULT?

Effortlessly smoothed, youthful, and luminous clear skin. A true 'real life' filter. What are you waiting for?! Embrace the perfect storm to perfect your skin. Get ready to bring the rain.

# THE ELEMENTS

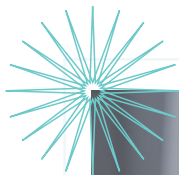

**ELEMENT ONE:**  
HURRICANE OXY ICE CLEANSE

Thought vortexes were just for the weather? Think again! In a world first, the SKINSTORM Hurricane Super Cleanse harnesses the power of nature's most violent super storms to effortlessly lift dirt and debris. The first vortex cleanser ever to combine dissolved pure oxygen and chills the skin to just above freezing while the vacuum effect literally lifts out impurities.

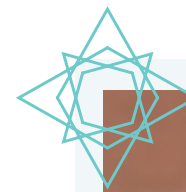

**ELEMENT THREE:**  
OXY ICE PEEL & ACNE ANTI-BACTERIZATION PEEL

Other peels on the market can be a one-way ticket to inflammation. Not this one. In another world first, this innovative formulation is the only one to combine dissolved oxygen and cryo temperatures to destress the skin and protect against any irritation. Peeling actives penetrate for a true 'inside out' treatment creating a clearer, fresher complexion. Congestion, dull and tired skin be gone.

**ELEMENT TWO:**  
RESURFACE AND HEAL

Thought you knew everything there was to know about microdermabrasion?! Wrong. SKINSTORM thunders it into the 21st century. It combines the infamous dramatic resurfacing results with restorative light therapy to fundamentally change skin texture, smooth and reduce scarring, lessen pigmentation, and provide acne relief. Think: flawless results with no downtime.

**ELEMENT FOUR:**  
OXY ICE FIBROBLAST NEEDLING (DRONE TECHNOLOGY)

Our globally renowned micro-needling roller uses one of kind drone technology to push the chilled serum containing dissolvable oxygen into the skin. The chilled roller is applied and creates microscopic channels prompting the skin to activate its 'collagen boosting' response. Meanwhile the patented Hylo-Filler drone serum is driven into the channels created to restructure, repair, stimulate collagen production, hydrate and visibly plump.

**ELEMENT FIVE:**  
HYLO FUSION (FILLER WITHOUT THE NEEDLE)

Love filler, hate needles?! This treatment delivers potent skin loving actives right where you want them for skin so plump, you'll have people whispering about invasive procedures. Entirely bespoke to you, this high-pressure, no needle injection delivers hyaluronic acid and our patented F10 to sit under the upper layers of the skin like a mattress. Counteract visible crow's feet, elevensies, sagging skin, jowls and even create an amazing natural lip filler.

## THE TREATMENTS

Each treatment is entirely personalised so you can achieve the results you need. Depending on your needs or skincare goals a course of treatments may be recommended. Speak to your SKINSTORM practitioner today and start your journey to incredible skin.

### THE SKINSTORM FACIAL

ULTIMATE, SUPERCHARGED PICK-ME-UP

This treatment is for skin that needs the ultimate, supercharged pick-me-up with the luxury of it all in one session. Combining all the SKINSTORM elements in a bespoke six-step process, for dramatic results.

### VITAMIN HYDRATION HIT

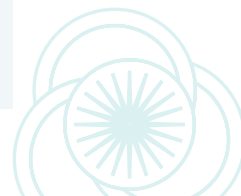

SUPER-CLEANSE, RESURFACE, HYDRATE

Skin that needs a serious rehydration or anti-ageing boost really benefits from this highly effective treatment. Perfect for dull, tired-looking skin, it super-cleanses, resurfaces, hydrates and stimulates collagen production, boosting skin cells and leaving skin feeling plump and glowing.

**ELEMENT SIX:**  
TRI-FUSION LIGHT THERAPY

Last but by no means least: light. Safe controlled levels of Red, Blue and Near Infrared light are clinically proven to help the skin respond optimally. We like to think of SKINSTORM light therapy as wrapping the skin in a bandage to help it heal, balance, rejuvenate, eradicate bacteria, and lift pigmentation after every session. Simply lie back and relax.

## **INSTANT SKIN FILLER**

THE FILLER WITHOUT NEEDLE

Deliver a tightening, plumping effect without the need for fillers or injectables with this innovative treatment and even create an amazing natural lip filler.

## **SURGEON PREP AND POST**

RESURFACE, PEEL & OXYGENATE

This treatment is perfect for clients undertaking cosmetic treatments or facial surgery. Pre-filler treatments, laser, cosmetic surgery, it prepares the skin, getting it into the best condition – resurfaced, peeled, oxygenated, hydrated and plumped to dramatically enhance any result of a cosmetic treatment.

## **ACNE ATTACK ICE FACIAL**

LONG-TERM IMPROVEMENT TREATING AT SOURCE

This treatment gently peels and resurfaces to clear out debris, creates anti-bacterization at the source of problematic congestion, and resurfaces the skin to smooth and blend any scarring while reducing hyper-pigmentation.

## **PORE REDUCER**

THE INSTANT PORE REFINER

Hurricane Super Cleanse, Resurfacing and Light, Oxy Ice Peel, and Ice Needling ensuring that even the largest pores are refined.

## **RESURFACE, PEEL AND HEAL**

A MORE EVEN SKIN TONE THAT LASTS

This treatment is perfect for skin suffering from hyperpigmentation or sun damage, resulting in a more even skin tone that lasts. Acne scarring gradually fades and scar tissue is resurfaced using a combination of methods that reduce pigmentation and encourage new healthy skin cell production.

## **EXTRACT AND ANTI-BACTERIZATION**

INTENSIVE SUPER CLEANING

This treatment is for skin suffering from congestion and blocked pores, and that's in need of intensive super cleansing to draw out impurities, vacuum blocked pores and refine open pores, while peeling and healing.
